Thematic Talks and Educational Resources (2021-2022)

(A) Thematic Talks

Purpose: It takes a world to end violence against children. Our Global Citizenship Programme is designed to equip students with knowledge about world poverty and social justice issues. We inspire them to take actions to brighten the future of vulnerable children! Our staff welcome invitations from educational institutions ranging from secondary schools to universities for thematic talks (presented in English). Each talk is designed to bring global issues alive for students with the help of multimedia and real-life examples.

Topic	Content
Social Innovation (Technology)	<ul style="list-style-type: none"> ● Take social innovative inventions as examples to understand how innovative designs can help poor people improve their lives ● Discuss the importance of community participation in the design process ● Encourage students to respond to the needs of the poor with attention and actions

* We are happy to collaborate with teachers to customise our talks to fit your curriculum where appropriate.
