

World Vision of Macau Association Thematic Talk and Educational Resources (2022-2023)

(A) Thematic Talk

Purpose: We are committed to equipping students with knowledge of global issues such as world poverty, extreme climate and war, which may seem distant from us yet are causing many vulnerable children in poor countries to suffer. With the vision to nurture global citizens of tomorrow, our staff welcome invitations from educational institutions ranging from secondary schools to universities for thematic talks (presented in English). Each talk is designed to bring global issues alive for students with the help of multimedia and real-life examples.
