Sharing is Blessing

South Sudan has long been affected by climate change and regional conflicts, forcing many people to be internally displaced. The lack of livelihoods has plunged them into food crisis, and the situation of hunger and malnutrition is unprecedentedly serious.

Moldova, itself an impoverished country in Eastern Europe, has received over 110,000 Ukrainian refugees who have been forced to flee their homes due to the war. The host families also need support to help the refugees during this difficult time.

World Vision invites Hong Kong students to donate their red packets this **Lunar New Year** to help vulnerable children and families on the other side of the world. The donations will be used to support World Vision's projects in partnership with the World Food Programme to provide food assistance, such as distributing emergency food to impoverished families in South Sudan, and helping Ukrainian refugees to have food and shelter by supporting their host families in Moldova.

Activity Period: February to March, 2024
