World Vision Hong Kong, incorporated with limited liability, is a Christian humanitarian organisation working to create lasting change in the lives of children, families and communities living in poverty.

WATER, SANITATION AND HYGIENE (WASH) PROJECT

MBERENGWA WEST RURAL COMMUNITY WASH PROJECT

COUNTRY: ZIMBABWE

PROJECT DURATION: NOV 2025 – OCT 2027 (24 MONTHS)

THE URGENT NEED

In Mberengwa West, **thousands of families**—especially **women and girls**—walk **hours every day** carrying heavy jerrycans from **contaminated rivers and unprotected wells**. **Children fall sick** from waterborne diseases, **miss school**, and **girls drop out** because of the **burden of water collection and lack of private sanitation**. This is more than inconvenience—it is a daily barrier to **health, education, and hope**.

But with your help, this can change.

WHAT WE'RE DOING

- ✓ Drill **deep boreholes** with solar powered systems for clean water
- ✓ Build **durable household latrines**
- ✓ Construct 10 **gender-specific school latrines**
- ✓ **Train builders** for local latrine and provide toolkits
- ✓ Form and train **Water Point Committee** in the community to help ensure sustainable use and community ownership
- ✓ Establish **Community Health & Hygiene Education Clubs** for lasting behaviour change

YOUR IMPACT

Funding of **HKD \$2,584,000** will target **5,000 people (2,800 children and 2,200 adults)** to create lasting change:

- ✓ Sustainable **safe water** for poor, vulnerable communities and children
- ✓ **Improved sanitation** and an end to open defecation
- ✓ **Life-saving hygiene** knowledge and lifelong behaviour change
- ✓ **Empowered communities** facilitating sustainable WASH interventions and services

Your Gift Delivers

HKD \$79,000 → 1 borehole for a community
HKD \$13,400 → 1 latrine block in a school
HKD \$1,340 → 1 latrine to a household

A SUSTAINABLE FUTURE

from 2016 to 2022, World Vision brought clean water to **25 million people**.

With your support, we will reach an **additional 30 million more** by 2030 across 42 countries — unlocking education, health, and opportunity for the world's most vulnerable children and families.

EDUCATION PROJECT

EL-MOLO BAY INTEGRATED SCHOOL RELOCATION PROJECT

COUNTRY: KENYA

PROJECT DURATION: JUN 2025 – SEPT 2026 (16 MONTHS)

THE URGENT NEED

Rising waters of Lake Turkana have submerged **300 homes and 17 school buildings** in the last 5 years. The only primary school in El-Molo community is now half underwater.

Among 680 students before the floods, only 268 children could still attend school, as the **majority of school facilities are being submerged**. Besides, many children have dropped out because some parents would avoid sending them on **dangerous boat trips** across turbulent lake waters to school.

Girls are especially at risk of **child marriage** and female genital mutilation (FGM) when they leave education.

Without a safe school on a higher ground, an entire generation will lose its right to learn.

But with your help, this can change.

WHAT WE'RE DOING

- ✓ Relocate and rebuild the entire school on safe, higher ground identified by the government
- ✓ Construct **9 new classrooms** (2 in Early Childhood Development & Education (ECDE) centre, 6 in primary school, 1 in junior secondary school) fully equipped with desks, tables and chairs
- ✓ Build **3 gender-specific 4-door Ventilated Improved Pit (VIP) latrines** (boys, girls, ECDE centre)
- ✓ Install **ECDE outdoor play equipment** (merry-go-round, slides, see-saw balancing and swings)
- ✓ Provide **life jackets** for children and teachers during the transition period, crossing from El-Molo Bay island to the school at mainland

YOUR IMPACT

Funding of **HKD \$2,153,000** will target **1,799 people**:

- ✓ Target direct beneficiaries
 - **680 students** (340 boys and 340 girls) in El-Molo Bay Primary School
 - **15 teachers/staff**
- ✓ Target indirect beneficiaries
 - **1,104 parents and caregivers**
- ✓ Secure the **new site** (government-approved higher ground)
- ✓ End the dangerous boat journey
- ✓ Fully **restore safe, joyful education** for every child

Your Gift Delivers

HKD \$125,000
HKD \$48,600

→ **1 fully-equipped classroom**
→ **1 Ventilated Improved Pit (VIP) latrines (4 doors)**

A SUSTAINABLE FUTURE

Last year alone, World Vision supported **over 6.9 million children and caregivers** through education programmes worldwide. We're making steady progress, but many children are still waiting for their chances.

Every child deserves a safe, caring and quality education that equips them for a confident, fulfilling life. With our 70-year community-led approach, we build solutions that last.

MILESTONE PROJECT - SCHOOL REHABILITATION

COUNTRY: NORTHWEST SYRIA

PROJECT DURATION: JUN 2026 – MAY 2027 (12 MONTHS)

THE URGENT NEED

The **15-year** Syrian conflict (since March 2011) has robbed an entire generation of childhood and education:

- **7,000+ schools** damaged or destroyed
- **2 million children** out of school
- **1 million more** are at risk of dropping out
- **One-third of enrolled children** never finish primary school
- **16.7 million people** (70% of the population) need humanitarian aid – **nearly half are children**

Children born into war face overcrowded classrooms, trauma, lack of materials, and barriers to even reaching school. Without urgent action, millions will grow up without the education they need to **rebuild their lives and their country**.

But with your help, this can change.

WHAT WE'RE DOING

World Vision is rehabilitating damaged schools in Northwest Syria so that children who are previously living in IDP (Internally Displaced Persons) camps but returning can access **safe, dignified learning spaces**:

- ✓ **Reconstruct and repair** school buildings
- ✓ **Expand classrooms** to reduce overcrowding
- ✓ **Rebuild and maintain** toilets & hand-washing stations
- ✓ Creating **protective, child-friendly environments** that help children heal and learn

YOUR IMPACT

Funding of **HKD \$6,028,000** will allow us to start this vital work in Northwest Syria and give even more Syrian children the chance to **go back to school** — and **rescue their childhood**.

This project mainly focuses on **education in fragile countries**, especially **rehabilitation/construction of school buildings**. Since 2019, the project has already been transforming lives:

- 6 projects implemented across 3 countries
- 31 school buildings rehabilitated or newly constructed
- Approximately 10,000 children now attending supported schools every day

A SUSTAINABLE FUTURE

Last year alone, World Vision supported **over 6.9 million children and caregivers** through education programmes worldwide. We're making steady progress, but many children are still waiting for their chances.

Every child deserves a safe, caring and quality education that equips them for a confident, fulfilling life. With our proven 70-year community-led approach, we build solutions that truly last.

Your Gift Delivers

HKD \$125,000
HKD \$48,680

→ 1 fully-equipped classroom
→ 1 latrine

SCHOOL MEALS PROJECT

SCHOOL MEALS FOR PRE-SCHOOL CHILDREN PROJECT

COUNTRY: SRI LANKA

PROJECT DURATION: JAN 2026 – JUN 2027 (18 MONTHS)

THE URGENT NEED

Rice, Potato, Dhal

Even as Sri Lanka recovers from the **2022 economic crisis**, with **5% growth** in 2024 and **3.5%** projected for 2025, many families in **rural and plantation areas** continue to struggle with **high inflation** and daily hardships.

In preschools, little ones aged 3–5 often arrive with **empty stomachs, too tired to play, too weak to concentrate and unable to learn**. Nationwide, approximately 15% of children under 5 are **underweight**, 10% are **wasted**, and 9% are **stunted**, these are clean signs of widespread **malnutrition** and **growth challenges**.

Food shortages, limited dietary diversity in meals, poor nutrition knowledge mean parents are unsure how to feed their children with the best nutrition. **hunger** quietly steals their health and future.

Other consequences include **poverty, school dropouts, child labour, early marriage**, and families trapped in cycles of despair.

But with your help, this can change.

WHAT WE'RE DOING

Rice, Mixed Vegetables, Green Leaves, Sprats, Pineapple

- ✓ Provide **one nutritionally adequate mid-day meal** every school day, specially designed to boost **protein and micronutrient intake**
- ✓ Conduct **nutrition and food literacy sessions** — raising awareness on **balanced diets, dietary diversity**, and **age-appropriate feeding practices**
- ✓ Organise **community sessions, live cooking demonstrations**, and distributing **easy-to-use educational materials**
- ✓ Improve **preschool attendance**, meeting children's **nutritional needs**, and supporting **better health**

YOUR IMPACT

Funding of **HKD \$947,300** will target **1,200 people** across **21 schools**:

- ✓ Target direct beneficiaries
 - **500 preschool students (aged 3–5)** will receive a **nutritious meal every day**
 - **700 adults** (parents, teachers & community members) will gain **lifelong nutrition knowledge**
- ✓ Ensure every child has **safe, sufficient and balanced food** they urgently need
- ✓ Secure children's **right to grow up healthy**
- ✓ Strengthen teachers' capacity and **food literacy** so every child reaches **proper weight and height**

A SUSTAINABLE FUTURE

World Vision has been feeding nearly **one million children daily** across **20 countries**.

By **2028** we aim for reach **10 million** people through locally led programmes.

Your support today helps these **500 little ones** and their families to grow **strong and remain hopeful for generations to come**.

Because no child should learn on an empty stomach.

Your Gift Delivers

HKD \$44,500

→ school meals for 1 preschool (18 months)

HEALTH AND NUTRITION PROJECT

SUPPORT FAMILY HEALTH HOUSES AND PROTECTION ACTIVITIES PROJECT

COUNTRY: AFGHANISTAN

PROJECT DURATION: NOV 2025 – OCT 2026 (12 MONTHS)

THE URGENT NEED

Afghanistan's **rugged mountains** and **vast deserts** leave millions isolated, cutting rural communities off from healthcare.

With a **maternal mortality rate of 638 deaths per 100,000 births**, among the highest in the world, and a shortage of **nearly 18,000 midwives**, far too many mothers and babies do not survive.

Recent funding cuts and a **40% reduction** in food support have forced **over 420 health facilities to close**, leaving **three million people** without care. Yet where **Family Health Houses** operate, **maternal deaths have fallen to zero** in some villages.

The need is urgent: without renewed donor support, these life-saving clinics will close, and **no mother should ever again have to walk for hours** to reach help.

But with your help, this can change.

WHAT WE'RE DOING

Keeps **20 Family Health Houses (FHHs)** open across 5 districts of Herat Province.

- ✓ Each FHH is staffed by **2 trained community midwives**, ensuring **culturally respectful** and **safe care**.
- ✓ Open **6 days a week, 8 am – 4 pm**
- ✓ Facilities include **2 consultation/delivery rooms**, 1 waiting hall, 1 toilet
- ✓ **Essential maternal & child health services** delivered daily
 - Antenatal and postnatal care
 - Safe deliveries and newborn care
 - Family planning
 - Breastfeeding counselling
 - Nutrition screening and treatment
- ✓ **All running costs covered**
 - Midwives' salaries
 - Medicines
 - Medical & non-medical supplies
 - Equipment maintenance
 - Heating and cooling

YOUR IMPACT

Funding of **HKD \$1,292,000** will target full support for **20 Family Health Houses** for one year.

During Oct 2024 - Mar 2025 (6 months):

- ✓ **1,300 women** received antenatal care
- ✓ **550 mothers** received postnatal care
- ✓ **4,790 women** accessed family planning
- ✓ **370 safe deliveries** were conducted

A SUSTAINABLE FUTURE

Across more than **30 countries**, we've helped **severely malnourished** children recover and regain their health. Over the past decade, **89%** of the children we treated have made a **full recovery**.

By training local women as midwives and strengthening community systems to meet national and global standards, we're building **resilient health services** that safeguard children for generations, **breaking the cycle of vulnerability** in the world's toughest places.

Your Gift Delivers

HKD \$ 5,500 → Full support for 1 FHH to serve women & children for 1 month
HKD \$1,200 → Provide 1 month of medical and non-medical supplies to 1 FHH

LIVELIHOODS PROJECT FOR CLIMATE ACTION

CLIMATE RESILIENT GREEN COMMUNITY PROJECT

COUNTRY: CAMBODIA

PROJECT DURATION: JUN 2024 – MAY 2027 (3 YEARS)

THE URGENT NEED

Poor households and their children, such as members of community forests, community protected areas, and agricultural cooperatives, are **highly vulnerable to climate change**.

Low awareness, limited capacity, and weak participation hinder effective environmental restoration and adaptation. Declining productivity of forests and farms **threatens food security and incomes**, while poor natural resource governance and the **loss of cultural practices** undermine social cohesion and community identity.

Thousands of children and families risk falling deeper into poverty and facing irreversible environmental degradation if we fail to act.

But with your help, this can change.

WHAT WE'RE DOING

We support a proven, **community-led approach** using **Farmer-Managed Natural Regeneration (FMNR)**. This simple, low-cost method regrows trees from living stumps through pruning and protection, complemented by **Regreening Communities** practices. Communities lead every step, from awareness-raising and planning to implementation, monitoring, and celebrating champions, transforming mindsets and building lasting ownership.

With these approaches, we can

- ✓ **Restore climate-resilient** landscapes and enhanced **biodiversity**
- ✓ **Increase** crop yields, forest products, livestock, and household **income**
- ✓ Strengthen **community cohesion** and hope for future generations
- ✓ Ensure effective natural resource governance through **Community-led Participatory Forest Management (CPFM)**

YOUR IMPACT

Funding of **HKD \$5,167,000** will target **7,650 people (1,500 poorest households, including 2,463 children and 5,187 adults)** in Community Forests (CFs), Community Protected Areas (CPAs), and Agricultural Cooperatives (ACs)

- ✓ Building skills in **climate-smart agriculture** and **market linkages**
- ✓ **Regreening land** and improving livelihoods through **FMNR & reforestation**
- ✓ Strengthening collaboration among communities, youth, authorities, and NGOs
- ✓ **Improving governance and sustainability** of natural resources

Your Gift Deliver

HKD \$ 6,000

→ Restore 10 hectares of degraded land

A SUSTAINABLE FUTURE

FMNR was pioneered **40 years ago** in Niger by **Tony Rinaudo**, now World Vision Australia's Principal Climate Action Advisor. This simple practice has **regenerated millions of hectares** across **40+ countries**. Tony is a **Right Livelihood Award** (Alternative Nobel Prize) winner and recipient of the **Luxembourg Peace Prize** for **Outstanding Environmental Peace** and the **Environment and Sustainability Award** from BAUM e.V.

With your support, we'll scale up this proven model, help restore 1 billion hectares by 2033, and deliver lasting hope for children, families, and the planet.

Together, we regreen lives and landscapes.

CHILD PROTECTION PROJECT IN CHINA

中國內地兒童保護項目

共享社區 — 殘障兒童美好未來項目

項目國家：中國（陝西、江西、吉林、天津、廣西）

項目年期：2023年6月 – 2027年9月（4年）

迫切需要

中國內地約有**500萬名殘障兒童**，而75%的殘障群體生活在農村地區，醫療、教育與復康資源有限。社會普遍對殘障人士認識較少，導致他們缺乏職業培訓與發展機會。

許多低收入家庭無法負擔**復康與特殊教育費用**，父母長期背負債務，甚至被迫放棄治療與教育，衍生家庭衝突。同時，父母缺乏專業照顧知識，社會對殘障群體的刻板印象根深蒂固，學校、社區、公共設施無障礙環境不足，殘障兒童常被孤立與隱藏，難以融入社會。

若不立即行動，數百萬殘障兒童將被邊緣化，家庭陷入絕望。

若你願意伸出援手，將可帶來改變。

我們的工作

- ✓ 為殘障兒童提供專業復康、認知訓練、生活技能及學術教育，全面補貼費用
- ✓ 培訓父母與照顧者，傳授專業照顧、正向教育與權利保護技巧
- ✓ 提升**社工機構與復康中心**的管理與技術能力，擴大服務覆蓋範圍
- ✓ 推動**社區無障礙環境**改造，舉辦包容性活動，讓孩子真正融入社會

你的捐助將帶來改變

有爱无碍
共创美好

總經費需求：HKD \$25,439,000

- ✓ 目標惠及：11,230人
 - 7,060名社區及孤兒院殘障兒童
 - 4,170名父母與照顧者

你的每一份捐款，都會直接轉化為：

- ✓ 殘障兒童在福利機構、復康中心、特殊教育學校、社區與家庭中獲得**高質量的復康、教育和社會工作服務**
- ✓ 透過減輕照顧者壓力、建立家長互助組織、推廣兒童保護標準、改善無障礙環境，讓孩子得到**適當照顧與全人發展**
- ✓ 孩子擁有**平台與機會**參與社區活動，增進社會大眾對殘障兒童需求與權利的理解

你的禮物

HKD \$ 4,800

→ 支援一名社區及孤兒院殘障兒童（4年）

LOCAL PROGRAMME (HONG KONG)

LOCAL PROGRAMME – SHARING FRESH FOOD PACKS WITH GRASS-ROOTS FAMILIES

THE NEED

Food has become the **heaviest financial burden** for **low-income families** in Hong Kong. In Sham Shui Po, many families **living in subdivided flats** share that they have no choice but to **“eat less and eat worse”** as a coping strategy. Mothers face **significantly higher levels of depression and anxiety**, with **economic hardship** as their **greatest source of stress**.

Between June 2024 to January 2025, our survey of 520 low-income families involving 589 children aged 2–11 revealed that **at least half of these children are not receiving adequate nutrition from the five major food groups**. **Poor diet quality** is undermining their **immediate health and growth**, and casting a shadow over their **physical and cognitive development** in the years ahead.

But with your help, this can change.

WHAT WE'RE DOING

- ✓ Every month: **100 new households** receive **4 fresh food packs** (one pack per week)
- ✓ Over **6 months: 2,400 packs** reached **600 households** in Sham Shui Po
- ✓ Recipes co-designed by **parent ambassadors and registered dietitians** (4 nutrition topics)
- ✓ Messages on **child nutrition** and **mental wellness** are included
- ✓ **Warm, face-to-face distribution** is building trust and strengthening **social support**

THE DIFFERENCE YOU MAKE

- Funding of **HKD \$360,000** (covering food packs, logistics, and support costs) will
- ✓ Give **600 struggling families** one full month of fresh, nutritious food
 - ✓ **Reduce the heavy financial burden** of food for low-income households
 - ✓ **Equip parents and children** with the knowledge, skills and confidence to build **lasting healthy eating habits**
 - ✓ **Strengthen social support and mental well-being** for mothers under extreme pressure
 - ✓ **Empower children and caregivers** with lasting behaviour change through practical, everyday results.

Local Programme – Nutrition Consultations & Workshops for Grass-roots Families
Feel free to contact us to learn more!

Your Gift Delivers  **HKD \$15,000 → 100 households receive one fresh food pack**

LOCAL PROGRAMME PROJECT – SEN SPORTS & RUNNING CLASS

THE NEED

Sports are vital for the **physical, cognitive, and social development** of children with **Special Educational Needs (SEN)**. Yet those from **low-income grass-roots families** rarely have access to regular sports activities, let alone **professional training tailored to their needs**. **Economic hardship** means these families simply cannot afford the fees, equipment, or transport required.

From the **2026/27 school year**, **Physical Education** will form part of the **secondary school entrance examination**. Without proper sports training now, **grass-roots SEN children** risk falling further behind, both **academically** and **socially**.

But with your help, this can change.

WHAT WE'RE DOING

Project Duration: 4 months per phase
Children Served: 24 grass-roots SEN children

In partnership with HK Special Needs Sports Institute (香港特殊需要體育學院) and Heritage Community Care (學基愛鄰社), we offer:

- ✓ **12 professional 1-hour Sports & Running Classes** (weekly, regular training) delivered by **qualified SEN sports coaches**
- ✓ Small-group training focused on **limb strength, jumping, coordination, flexibility, communication & confidence**
- ✓ **Parent education sessions** on positive parenting with SEN children, and supporting their children's development through sports
- ✓ Joyful **Graduation Ceremony** with special activities to celebrate every child's progress for each phase

THE DIFFERENCE YOU MAKE

Funding of **HKD \$90,000** will empower **24 grass-roots SEN children and their parents** through one full phase of the programme, providing:

- ✓ **Regular, professional sports training** that low-income families could not otherwise access
- ✓ **Stronger bodies, better coordination, improved discipline and concentration**, as well as physical fitness for everyday life
- ✓ Greater **confidence, communication skills, and social inclusion**
- ✓ Visible positive **behavioural and emotional changes** in the children
- ✓ Positive development environment with **improved parent-child and family relationship**
- ✓ Equipped and **encouraged parents** who can continue supporting their child's growth
- ✓ **A proud moment of achievement** at the Graduation Ceremony

Your Gift Delivers

HKD \$22,500

→ 6 grass-roots SEN children and parents for one full phase of the programme
