氣候行動 Climate Action

主要透過「重建綠色社區」及「天然資源再生技術」（FMNR），幫助社區對抗土地退化，快速修復農林並重新獲得耕地。農民能藉此種植作物作為糧食及貿易之用，從而提升兒童、家庭與社區的抗逆力及氣候適應能力。

Primarily through **Regreening Communities** and **Farmer-Managed Natural Regeneration (FMNR)**, the initiative helps communities combat land degradation, rapidly restore agroforestry, and regain arable land. This enables farmers to grow crops for food and trade, thereby enhancing the resilience and climate adaptation of children, families, and communities.

小額貸款 VisionFund

透過提供儲蓄、「小額貸款」及「微型保險」等金融服務，我們幫助面對災害及氣候衝擊的貧窮家庭建立韌性，發展小生意，實現自給自足。這不但改善家庭生計，亦保障孩子的基本需要，如食物與教育，為推動社區邁向可持續發展帶來**希望**。

Through financial services—including **savings**, **micro-loans**, and **micro-insurance**—we help vulnerable families facing disasters and climate shocks build resilience, grow small businesses, and achieve self-reliance. This improves livelihoods, secures children's essential needs such as food and education, and brings **HOPE** to drive sustainable community development.
