AFRICA

Odweyne Area Rehabilitation Program – Somalia

Goal Seek to address and mitigate against the impacts of climate change in the area through strategies that seek to enhance resilience of the communities in Odweyne

Problem

- **Protracted humanitarian crisis** in Somalia is among the most complicated around the globe, ongoing armed conflict and insecurity with recurring climate shocks has resulted in protracted economic vulnerability across the country;
- **Food security and nutrition needs remain high in all of Somalia** poor agro-pastoral, marginalized and displaced communities face huge nutrition gaps: 1 million children at risk of acute malnutrition, with estimated **Global Acute Malnutrition (GAM) rate at 13.8%** in Somalia population which remains serious;
- In Togdheer region, 13.7% children under 5 are stunted, 2,793 malnourished children and 967 malnourished pregnant and lactating women are in need of malnutrition prevention and treatment support.

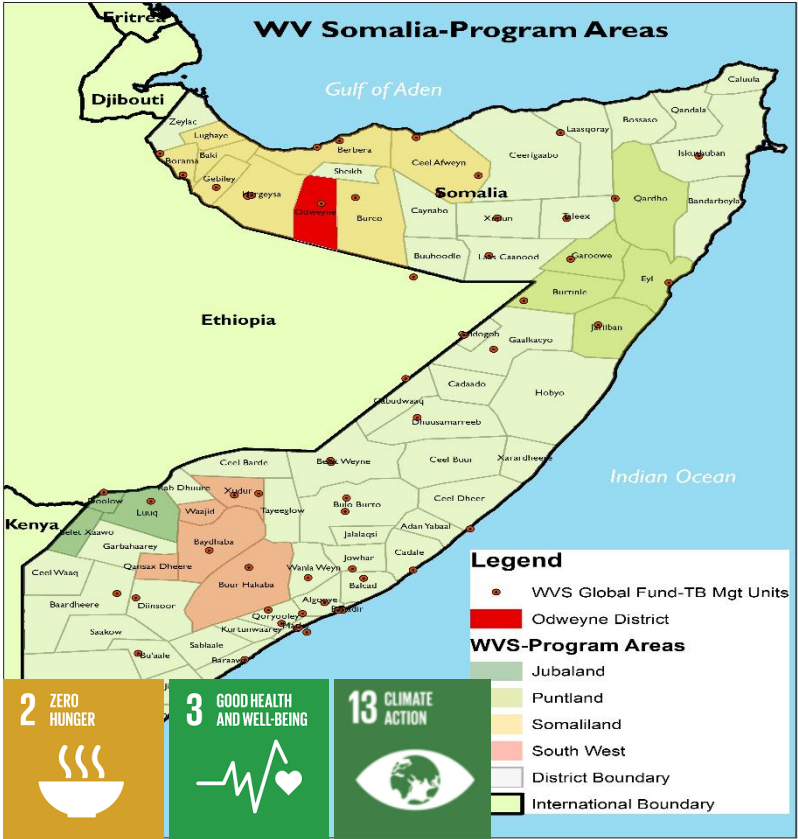

Key Outcomes

1. Longer term resilience and prevention of children malnutrition;
2. Communities supported to practice Farmer Management Natural Regeneration (FMNR), a climate smart approach to restoring degraded lands and preventing future degradation, thereby reducing vulnerability to climate change;
3. Increase income and productive assets for small holder farmers and pastoralists;
4. Improved resilience to shocks through Community Based Disaster Risk Reduction (CBDRR) interventions for the targeted communities.

Target Outputs

- Increase income and productivity through agricultural inputs supply, poultry support, diversification of income sources, improved management of natural resource using conservation agriculture, & pasture management, etc.
- Build capacity of the community to gain applicable employable skillset, ability to set up their own businesses;
- Improve the capability of smallholder farmers and pastoralists in managing emergencies and shocks, disaster preparedness and risk management, etc.

Livelihoods, Nutrition

Location: Odweyne District of Togdheer Region, Somaliland, Somalia

Beneficiaries: 2,865 people, incl. 1,146 adults and 1,719 children

Funding need: HKD 10,467,000

Time length: Oct 2020 – Sep 2023 (3 years)

ASIA (OTHER THAN CHINA)

Building Resilience with Children Working in Kathmandu's Brick Kiln (BRiCKK) Phase II – Nepal

Goal	Children and Families in Brick Kilns are Protected from Exploitative and Hazardous Labour
Problem	<ul style="list-style-type: none"> Low income opportunities for families: Nepal being one of the lowest-income countries, which ranks 5th worst country in terms of Global Slavery Index, takes the form of forced labour, especially in brick kilns and textile industry; Lack of protection on child labour: 600,000 children are found engaged in full time labour, including hazardous form of labour, which hampers their physical and mental development for the lack of health and safety protection may lead to devastating and long lasting impacts on children; Multiple protection issues affecting children and families including: child labour, lack of education, depravation of living environment, bonded labour and indecent work.
Key Outcomes	<ol style="list-style-type: none"> Government's legal system and implementation plan functions effectively to reach and protect children in brick kilns; Families engaged in brick kilns have alternative livelihood options; Families and Children are empowered to advocate for improvements in safe, decent and non-exploitative environments in brick kilns.
Target Outputs	<ul style="list-style-type: none"> Provide training for brick industry stakeholders on upholding minimal standards for Occupational Safety and Health; Facilitate the government to monitor kilns regularly and implement action plan to achieve child labour free; Strengthen the reporting and responding mechanism for child protection issues; Provide vocational skills training for adolescents and families; Support young children with early education and out-of-school children above 6 to continue formal education; Advocate for better working and living conditions for workers, e.g. lighting in the settlement and pathway to the toilet.

Child Protection, Education, Livelihoods

Location: Kathmandu Valley, Nepal

Beneficiaries: 1,368 families, incl. 2,326 adults and 1,075 children, in 8 Brick kilns

Funding need: HKD 2,719,000

Time length: Oct 2021 – Sep 2023 (2 years)

CHINA

學習根基 - “閱享童年” 鄉村幼兒閱讀項目 (江西、陝西、雲南)

教育、兒童保護

目標	提升鄉村幼兒閱讀的機會及品質，促進幼兒學前教育，為入學做好準備 (2-6歲)
問題描述	<ul style="list-style-type: none">2-6歲是幼兒發展的最佳時期，也是兒童進入學前教育的階段，其發展從家庭擴展到學校的領域，但此年齡段並不在義務教育階段，政府的投入非常有限，需要更多的社會力量支援2018年，中國扶貧基金會、北京師範大學中國公益研究院攜手愛心企業聯合發佈針對中西部貧困地區的《鄉村兒童閱讀報告》調查顯示：中西部貧困地區兒童課外閱讀目前仍處在較低水準，74%的受訪農村一年閱讀的課外讀物不足10本，一本課外讀物都沒有的受訪兒童比例接近20%中西部鄉村地區兒童實際課外閱讀數量、時間和城市存在較大差異，中西部鄉村地區兒童課外閱讀普遍缺少老師的指導和家長的參與，鄉村幼兒面臨暴力等諸多風險
解決方案	<ol style="list-style-type: none">加強教學資源/設施/環境使符合最低標準和/或國家學前教育品質標準教師在學前教育和/或課堂實踐中的能力建設項目模型研討交流，幼兒圖書館共創設計通過學前教育及兒童發展培訓提升家長/照顧者的能力在社區組織相關家長照/顧者親子活動
預計成效	<ul style="list-style-type: none">提高幼稚園的品質，使兒童 (4-6歲) 獲得適合其年齡的優質學前教育提高家長/照顧者支持孩子發育的知識和技能，為兒童發展提供更好的支援

地點：	江西、陝西、雲南
受益者人數：	10,245人(6,000名兒童、1,920名老師/幼兒工作者、3,900名家長/照顧者)
項目預算：	HKD 4,252,000
項目年期：	2022年1月-2024年9月(3年)

HONG KONG

Local Programme on Nutrition and Health

Goal	<ul style="list-style-type: none">Short-term: To raise awareness on the importance of children’s nutrition and healthy diets among parents and children of low-income families so that they are equipped with the necessary knowledge, skills and feeling of self-adequacy for behavioral changesLong-term: To improve malnutrition among children from grassroots families
Problem	<ul style="list-style-type: none">Poverty and disparity between the rich and the poor in Hong Kong are becoming much serious than before, and the situation has been worsened since the pandemic. Grassroots families become more difficult to make ends meet while living on a tight budgetIntake of the ‘Five Food Groups’ (Fruits, Vegetables, Grains, Protein Foods and Dairy) among children from grassroots families is significantly inadequate, resulting in various health issues such as constipation and malnutrition
Interventions	<ul style="list-style-type: none">One-on-one nutrition consultations and follow-ups with registered dietitians for childrenParticipatory workshops for both parents and children on nutrition knowledge, practical skills of preparing and incorporating nutritious foods into diets, etc.
Target Outcomes	<ul style="list-style-type: none">Children have adequate intake of the Five Food GroupsScore of the severity of constipation among children has decreasedScore of Food Fussiness among children has decreasedParents’ knowledge on nutrition and confidence in preparing healthy food for their children and families have increased

Nutrition and Health

Location: Hong Kong

Beneficiaries: 70 children aged between 6 to 11 and their parents from 60 low-income families

Funding need: HKD 240,000

Time length: Apr –Jun 2023 (8 weeks)

Notes

- The catalogue shows a few sample projects only.
- For any interested parties who would like to support in other countries, and certain specific causes, etc. please feel free to contact us in revealing your interest by phone at (+852) 2394-2394 or by email corporate@worldvision.org.hk
- The projects shown in the catalogue may subject to change owing to the project timeline, and the local situation and circumstances in the project area covered.
- This issue is updated and published in January 2023.
